# What if ... The freight went missing?

You are pulling a 53' trailer down a highway full of potholes. Thanks to the bumpy ride, the rear doors of the trailer swing open and cargo begins to fall out. You don't realize it right away, but when you do, you stop to take inventory. No matter how many times you count it, the result is the same – your inventory is short.

While it's in your care, you were responsible for the cargo and now some of it is missing.

Don't worry — you're covered.

With Cargo Secure, you are covered if there's a shortage when taking inventory. It's cargo insurance where you don't have to pay more to get more. It's simple.
