

# Making farm insurance better

SGI CANADA has a new Farm Business Unit, committed to making farm insurance better to meet the evolving needs of customers in the agriculture sector.

[www.sgicanada.ca](http://www.sgicanada.ca)

As of Feb. 1, 2019, we're improving our Agro Pak with changes you've told us you want to see.

Read on to find out what's new, and talk to your insurance broker to discover how you can benefit.

## What's new

### We're providing separate claims-free discounts for your house and your farm.

In the past, if you had a claim on your house, it affected the cost of your farm insurance policy. Now, your house and your farm will each have their own claims-free discounts applied. If you've had a claim in recent years, this change could result in more savings on the cost of your insurance policy.

### Farm insurance is available without a home on the policy.

We know that farming has changed, and we're changing with it. Now, you won't be required to insure a home in order to qualify for insurance for your corporately-owned farm.

### We're offering limits up to \$50,000 on our loss of use coverage.

The cost of renting farm equipment is going up and your insurance coverage needs to reflect that. You can now get coverage of up to \$50,000 to cover the cost of renting replacement equipment if you've lost the use of your machinery due to a claim.

Your Best Insurance  
is an Insurance Broker
